Sir/Madam,

Sub : Allotment of Tax Deduction Account Number (TAN) as per Income Tax Act,1961

Kindly refer to your application (Form 49B) dated Mar 25, 2025 for the allotment of Tax Deduction Account Number.

In this connection, the following TAN has been issued to you/your organisation:

DELE19538B

Please quote the same in all TDS challans,TDS Certificates,TDS returns,Tax Collection at Source(TCS) returns as well as other documents pertaining to such transactions.

Quoting of TAN on all TDS returns and challans for payment of TDS is necessary to ensure credit of TDS paid by you and faster processing of TDS returns.

The above TAN should also be used as Tax Collections at Source Account Number under section 206CA.

Kindly note that it is mandatory to quote TAN while furnishing TDS returns, including e-TDS returns. e-TDS returns will not be accepted if TAN is not quoted.

This supersedes all the Tax Deduction / Collection Account Number, alloted to you earlier.

LETTER OF
RECOMMENDATION

Company is Proudly referring to :

Shresta Saini

We are pleased to refer him for the role of Campus Ambassador, as he has recently completed his tenure in the same role with our organization with outstanding results. From the very beginning, he demonstrated a high level of enthusiasm, professionalism, and a strong willingness to learn. He consistently met all expectations, actively engaged with peers, promoted our brand with dedication, and often exceeded our outreach goals.

His ability to grasp new concepts quickly and apply them effectively in real-world campus engagement scenarios was truly impressive. As a result of his dedication and impactful contribution, he was awarded a Certificate of Excellence, which reflects not only the successful completion of his responsibilities but also the exceptional quality of his performance throughout.

EDUVEDA — ACADEMY

FAQs

When can I start the training?

You can choose your preferred batch date while signing up for the training program and start accordingly.

What will be the timings of the training?

As this is a purely online training program, you can choose to learn at any time of the day and for as much time as you want. We will recommend a pace to be followed throughout the program, but the actual timings and learning hours are in your hands.

How much time should I spend on the training every day to be able to complete it in 8 weeks?

As this is a purely online training program, you can choose to spend as much time as you want per day and the more time you spend, sooner you would be able to complete the training.

Will I be able to download the study material?

Yes, you would be able to download the training content and have lifetime access to it for future reference.

What career assistance will I receive from Eduveda as part of the training?

You will receive free access to Career Preparation Training on the platform which covers resume writing, cover letter writing, how to search and apply for internships and jobs on Eduveda, and interview preparation. Access to curated internships & jobs related to the training - after completing the training, you would receive a list of handpicked internships or jobs every week that you can apply to as per your preference.

What is the criteria to be a top performer in the training?

When you score >= 90% in the final test, you will be a top performer and you will get highlighted in your internship and job applications.

I'm excited to announce that I've completed my Data Science internship at **Eduveda Academy**, under the mentorship of Saurabh Kumar, an IIT Roorkee alumnus and former Data Scientist at Google. This internship was an incredible opportunity to develop my skills in data analysis, machine learning, and statistical modeling, working on real-world projects that enhanced my ability to derive insights from data.

Some of the key projects I worked on include:

Social Media Sentiment Analysis using Python, Pandas, and Natural Language Processing (NLP)
Predictive Analytics for blog website traffic using machine learning algorithms in Python and scikit-learn
These projects allowed me to refine my skills in data wrangling, feature engineering, model building, and data visualization, while gaining hands-on experience with advanced data science tools.

A huge thank you to Eduveda Academy for offering such a hands-on, impactful learning experience, and to Saurabh Kumar for his constant guidance and mentorship.
